COMMERCIAL PROPERTY, CASUALTY & CYBER REINSURANCE RFP

Request for Proposal & Commercial Insurance Underwriting Slip

Target Prospect / Insured:	ICICI Lombard General Insurance Company Limited
Proposed Policy Term:	November 1, 2026 - October 31, 2027 (12 Months)
Proposal Ref No:	RFP-2026-ICICI-LOMBARD-408 | Date: October 15, 2026
Underwriting Syndicate:	Syndicate 1884 Commercial Re & Specialty Lines
Target Industry:	Commercial Lines & Enterprise General Insurance

EXECUTIVE OVERVIEW

This Request for Proposal (RFP) establishes the commercial lines underwriting terms, reinsurance placement structure, and cognitive technology capabilities for **ICICI Lombard General Insurance Company Limited**. As a market-leading non-life insurer in India, ICICI Lombard requires comprehensive quota-share treaties, excess-of-loss capacity, and intelligent underwriting automation to maintain combined ratios below 90%, accelerate commercial quotation cycles, and satisfy all IRDAI regulatory solvency guidelines.

BUSINESS OBJECTIVES

- **Automate commercial underwriting intake** and triage across enterprise property, casualty, and specialty lines.
- **Accelerate multi-location commercial quotation turnaround time by 60%** through automated document extraction.
- **Enhance risk scoring precision** utilizing predictive multi-peril catastrophe analytics and geospatial intelligence.
- **Modernize policy administration workflows** and broker intake through seamless cloud-native API integration.
- **Streamline claims adjudication and fraud detection** to preserve underwriting profitability and minimize leakage.

SCOPE OF WORK & TECHNICAL REQUIREMENTS

- **Must provide automated commercial risk scoring** and dynamic pricing workflows for property and casualty risks.
- **Shall support real-time API integration** with core policy management systems and IRDAI compliance reporting engines.
- **Must provide AI/ML predictive loss ratio modeling** across complex multi-peril industrial commercial policies.
- **Shall automate regulatory compliance tracking** and quarterly statutory IRDAI solvency margin monitoring.
- **Must support enterprise-grade security controls** with AES-256 encryption at rest and TLS 1.3 encryption in transit.
- **Shall deliver cloud-native microservices architecture** guaranteeing minimum 99.95% operational service uptime.

1. PROPOSED COVERAGE & SUM INSURED

Structured limits, sub-limits, and retentions under this commercial underwriting agreement are detailed below:

- **Commercial Property & Asset Loss Sum Insured:** INR 750 Crore (Rs 7,500,000,000)
- **Comprehensive General Liability (CGL) Sum Insured:** INR 250 Crore Limit
- **Cyber Risk & Data Breach Liability Sum Insured:** INR 150 Crore Aggregate Sub-limit
- **Directors & Officers (D&O;) Liability Sum Insured:** INR 100 Crore Limit
- **Marine Cargo & Transit Specialty Line Sum Insured:** INR 50 Crore Sub-limit

Coverage Line	Sum Insured / Limit	Policy Retention / Deductible
Commercial Property & Asset Loss	INR 750 Crore (Rs 7,500,000,000)	INR 50 Lakh per occurrence retention
Comprehensive General Liability (CGL)	INR 250 Crore Limit	INR 20 Lakh per claim deductible
Cyber Risk & Data Breach Liability	INR 150 Crore Aggregate Sub-limit	INR 25 Lakh retention / 12-hour waiting period
Directors & Officers (D&O;) Liability	INR 100 Crore Limit	Nil retention for Side A; INR 15 Lakh for Side B
Marine Cargo & Transit Specialty	INR 50 Crore Sub-limit	INR 10 Lakh per consignment retention

2. PRICING & PREMIUM STRUCTURE

- **Estimated Annual Gross Premium:** INR 18.5 Crore (Inclusive of applicable Goods & Services Tax)
- **Installment Structure:** 4 Equal Quarterly Payments of INR 4.625 Crore payable in advance.
- **Policy Retention:** INR 50 Lakh per individual claim across commercial property and cyber lines.
- **Deductible:** INR 20 Lakh per claim deductible applicable for General Liability and Marine cargo.

3. MANDATORY UNDERWRITING CONDITIONS PRECEDENT

- **Solvency Margin Condition:** Maintain IRDAI Solvency Margin ratio strictly above 1.75x statutory threshold throughout policy period.
- **Statutory Financial Statements Condition:** Submit quarterly statutory audited financial statements and loss reserve filings within 45 days of quarter-end.
- **Cyber Security Condition:** Maintain active SOC 2 Type II certification, ISO 27001 audit compliance, and enforced Multi-Factor Authentication (MFA) across all administrative portals.
- **Precedent Inspection Condition:** Mandatory certified risk engineering survey for industrial manufacturing plants exceeding INR 50 Crore sum insured.

4. KEY POLICY EXCLUSIONS

- **Unstated Pre-Existing Illnesses & Prior Losses Exclusion:** Excludes unstated claims, prior known losses, or regulatory enforcement actions initiated prior to November 1, 2026.
- **Sovereign War & Combat Exclusion:** Losses caused by declared or undeclared sovereign war, military invasion, armed rebellion, or nuclear radiation hazards.
- **Fraudulent Misrepresentation Exclusion:** Claims arising from intentional non-disclosure, gross negligence, or fraudulent distortion of material risk inspection filings.
- **Unencrypted Media Exclusion:** Cyber extortion or data liability claims arising from lost or stolen unencrypted portable media devices.

TECHNOLOGY CAPABILITIES & ARCHITECTURE

Syndicates and solution providers must demonstrate operational maturity across key technological competencies:

- **AI/ML & Generative AI Underwriting:** Autonomous commercial policy document intake, extraction, and automated clause comparison.
- **Commercial Risk Assessment:** High-precision catastrophe peril modeling and dynamic PML (Probable Maximum Loss) calculation.
- **Workflow Orchestration:** Multi-tiered submission triage routing, priority scoring, and underwriter authority assignment.
- **API Integration & Core Connectivity:** RESTful and GraphQL connectors for seamless binding with enterprise core systems.
- **Cloud Modernization & Analytics:** Scalable cloud-native data lakehouse supporting real-time loss ratio dash-boarding.

VENDOR EVALUATION CRITERIA

- **Technical Architecture & API Scalability (30%):** Evaluation of cloud scalability, real-time throughput, and information security.
- **Underwriting Domain Expertise & Model Accuracy (25%):** Precision of commercial risk triage and underwriting loss reduction.
- **Implementation Track Record & SLA Guarantees (25%):** Proven delivery within Tier-1 commercial general insurance institutions.
- **Commercial Pricing & Terms Flexibility (20%):** Total cost of risk transfer, competitive premium rates, and installment flexibility.
